**Rules for Watershed Alphabet:** During each season of the year take a hike on a trail along your favorite creek, stream or river. See if you can find something along the stream for each letter of the alphabet, a plant, animal, or mineral. For instance, W for water. In winter it could be F for frozen water or I for ice. You'll find different things in the different seasons, and as you learn more about streams and watersheds you'll be able to find more things.
